

# FOURTH GRADE NEWS

WEEK OF: March 3, 2023

## WHAT WE'RE Learning

### READING

Students worked together to integrate information from two texts. Students cited relevant evidence to write a literary essay. "Writing essays is actually kind of fun"- 4th grade

### MATH

Students learned how to use a protractor to measure angles. Students practiced finding the vertex of the angle. Students became more precise each day. Next week, we will learn how to classify polygons.

### WRITING

Students began publishing their opinion pieces this week. Students worked on applying their formatting rules that we learned from Mrs. Garneau.

### SOCIAL STUDIES

Students will continue learning about the early history of the state of Illinois. We will also discuss what makes our state unique.

Our class had such an amazing time at the Marriott Theatre! Thank You BSPO!

## Reminders

### INTERNATIONAL FAIR

Join us for Bannockburn's 2023 International Fair on Thursday, April 27 from 6:00-8:00. Please click [HERE](#) for more information.

### TIE DYE SPIRIT DAY

Wear your favorite tie-dye to school on Friday, March 24th.

### BAND

As a reminder, 4th grade band lessons will take place on Thursdays. Don't forget your instruments.

### BOTB RECOMMENDATION

Click [HERE](#) to read a new BOTB recommendation from our very own Cassandra.

## IMPORTANT Dates

3/6-NO SCHOOL

3/14- LIBRARY NIGHT

3/27-3/31-SPRING BREAK

## Questions of the week

Ask these questions to quiz your child about what they've learned this week!

- What is the connection between hygiene and medical practices?
- What is the difference between the y-axis and x-axis?
- How often should you change your smoke detectors?
